

SMART Board

MX

series 

THE GAME CHANGER

55" | 65" | 75" | 86"

Android 11
embedded computing

Experience true multi-user interactivity

Make room for everyone with **the only touch technology on the market** to let your students write, erase, touch and gesture at the same time, across platforms and applications, without interfering with another user's tool choices.

The SMART MX series intuitively recognizes what tool you're using, and is smart enough to maintain your pen choice across files and apps, making it effortless for teachers and students to transition between programs.

20 continuous touch points:

Write, touch, gesture, erase

Pen, touch AND eraser differentiation

2 pens

Palm erase

We've changed the game with the MX Series, a display that's simple to use, deploy and support with value and capability that other brands just can't touch.

Powered by iQ

Android 11 made SMART:

Easier workflows for educators, a whiteboard app, built-in tools and resources and student device integration - all designed for teaching and learning.

iQ puts everything teachers need to confidently teach at their fingertips, regardless of their tech comfort level.

iQ at a glance

-  Built on Android 11 - with automatic OTA security updates & feature upgrades
-  Multi-user support with NFC sign-in
 - Up to 20 self-serve profiles
 - Google & Microsoft authentication
 - Lock screen & clean-up
-  Personalized quick-launch home screen
-  Cloud storage access
-  Split screen mode
-  App store & featured web apps, including G-Suite and Microsoft Office apps

The “walk up and teach” whiteboard

Built-in content and activities make it easy for teachers to add interactivity and engagement on the fly—even if they’ve never used a SMART Board.

- Multi-page PDFs import **in as little as 3 clicks**
- Engage students with exclusive digital manipulatives, graphic organizers, embedded image/video search and more
- Whole-class polling and brainstorming activities
- Split screen mode with simultaneous multi-user touch, writing and erasing

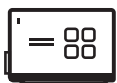

10 Student connection options

1. A whole-class whiteboard

where students learn with and from each other through their devices:

- Multi-way contribution
- Ink and text tools
- Move and resize objects
- Attribution

Unlimited connections for student devices

Integration that is so much more than screen sharing. SMART displays with iQ allow for whole-class participation, truly active learning and a level of student engagement that you just haven’t seen before.

2. Live whiteboard broadcast

- Teacher student-paced navigation
- Instant join via QR code

Screencast

3. Airplay
4. Google cast
5. Miracast
6. Screencast app
7. Web app

Wired

- With plug & play Windows Ink support
8. HDMI + USB
 9. 65w USB-C

Video conferencing

10. Share through your choice of conferencing solution
